

UNITED STATES
ATOMIC ENERGY COMMISSION
WASHINGTON, D.C. 20545

August 2, 1969

OFFICE OF THE CHAIRMAN

Professor Joshua Lederberg
Department of Genetics
Stanford University Medical
Center
Stanford, California 94305

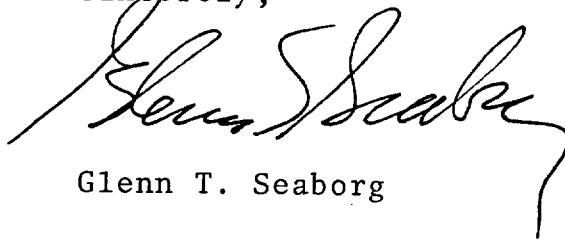

Dear Professor Lederberg:

I was quite pleased to receive your request of July 29, 1969, for my views on the environmental situation. I also appreciate the nice words that you had for the standards set by the AEC.

The statement attributed to me in the Congressional Record is taken from a speech I gave last May entitled "The Environment - And What to do About It." The full text is enclosed for your perusal.

I am a regular reader of your column in the Washington Post and I enjoy it immensely.

Sincerely,

Glenn T. Seaborg

Enclosure

SEABORG
